

Kod szkolenia: **ALM370**

Tytuł szkolenia: **Application Lifecycle Management Scripting 11.5**

Dni: 2

## Opis:

This course is an advanced Application Lifecycle Management (ALM) course that focuses on customizing ALM. The course delves into the Open Test Architecture (OTA) library to teach the students not only how to navigate and understand the library to help customize ALM, but also illustrates many real world examples about how to extend the capabilities of ALM, limited only by your knowledge of VB Scripting. Another area that is covered is how to integrate ALM with external third-party applications.

The hands-on labs for this course use version 11.5 of the software.
