

Kod szkolenia: **QC370**

Tytuł szkolenia: **ALM Quality Center Scripting 11.x**

Dni: 2

Opis:

This course is an advanced Application Lifecycle Management (ALM) Quality Center course that focuses on customizing ALM Quality Center. The course delves into the Open Test Architecture (OTA) Library to teach the students not only how to navigate and understand the library to help customize Quality Center, but also illustrates many real-world examples on how to extend the capabilities of Quality Center, limited only by your knowledge of VB Scripting. Another area that is covered is how to integrate Quality Center with external 3rd party applications.

The hands-on labs for this course use version 11.0 of the software.
