Tytuł szkolenia: **SOA Systinet 4.x Essentials**

Dni: 4

## Opis:

This introductory course provides students with the skills needed to effectively use and manage the HP SOA Systinet 4.x software product. This instructor-led training provides a comprehensive overview of the SOA Systinet platform, including key terminology, product features, detailed product usage, and integration with HP SOA Registry and an introduction to the new Integrated Policy Enforcement Point (IPEP). This course includes an introduction to the Systinet Workbench tools, which allow users to customize SOA Systinet. This four-day course is a mixture of lectures and hands-on labs.

The hands-on labs use version 4.02.
