

Kod szkolenia: **RUM120**

Tytuł szkolenia: **Real User Monitor 9.x Essentials Workshop**

Dni: 3

Opis:

This intermediate, virtual, and instructor-led classroom training offers technical personnel who are new to Real User Monitor (RUM) 9.1 the opportunity to develop hands-on experience in applying the fundamental concepts, principles, and methodologies for managing the administration and configuration aspects of this enterprise software performance monitoring and service management solution. This course is recommended for individuals who are responsible for providing operational visibility into the performance and availability aspects of mission-critical applications. The hands-on labs for this class use version 9.1 of the RUM application.

This course is designed for users who have working experience with Business Service Management (BSM).

This course covers Software versions 9.0 and 9.1.
The hands-on labs for this class use version 9.1 of the RUM application.
