

Kod szkolenia: **BSM160**

Tytuł szkolenia: **Application Performance Management 9.x for Operators**

Dni: 2

## Opis:

This two-day, entry-level, instructor-led classroom training offers business operators and end users, who are new to HP Business Service Management (BSM) 9.2, the opportunity to develop hands-on experience in applying the fundamental concepts, principles, and methodologies for managing the Application Performance Management (APM) components of BSM. This course is recommended for individuals who are responsible for providing operational visibility into the performance and availability of mission-critical applications.

The hands-on lab exercises in this course use Business Service Management version 9.2.
