

Kod szkolenia: **OMW140**

Tytuł szkolenia: **Operations Manager 9.x on Windows for Operators**

Dni: 2

Opis:

This 2-day instructor led course focuses on the day-to-day tasks for HP Operations Manager on Windows. You will learn how to effectively monitor, manage, and report on the health and performance of systems and applications in a heterogeneous IT environment using HP Operations Manager on Windows. The course reinforces concepts with extensive hands-on lab exercises.

This course is a customized subset of the Operations Manager 9.x Windows Administration course and also contains some new material focusing on the needs of the operators of Operations Manager 9.x on Windows. Lab environment is located Highfield Park. VTMS is not currently possible due to OS version incompatibility of certain components.

This course covers Software versions 9.0

The hands-on labs are currently using software version 9.0
