

Kod szkolenia: **SE120**

Tytuł szkolenia: **Managing Storage Essentials 9.x**

Dni: 3

Opis:

This course provides the essential knowledge to enable administrators to configure and manage HP Storage Essentials software. The hands-on lab exercises reinforce the theory sessions to ensure a thorough understanding of Storage Resource Management (SRM) concepts, the functionality of the software and its application to typical storage implementations. Storage Essentials 9.5 software is used during the hands-on exercises.

SOFTWARE VERSION: 9.4, 9.5
