

Kod szkolenia: **AM330**

Tytuł szkolenia: **Asset Manager 9.x Software: Modules**

Dni: 5

## Opis:

This five-day, instructor-led training is designed to provide the technical skills and knowledge needed to implement and configure HP Asset Manager (AM) following Information Technology Service Management (ITSM) best practices and Information Technology Administration Management (ITAM) processes. The class covers such modules as Contracts, Financials, and Procurement. In addition, students learn how to track software licenses. These skills assist an Administrator in their ability to implement an asset management solution in an enterprise-level business or large organization. The class consists of approximately 50% lecture and 50% hands-on lab exercises.

This course is designed for users who are proficient in HP Asset Manager.

Software Version: 9.4
