

Kod szkolenia: **PI350**

Tytuł szkolenia: **Performance Insight 5.x Advanced Administration**

Dni: 5

Opis:

This 5-day course will make students self-sufficient in building Performance Insight reporting solutions and in the implementation and automation of advanced Performance Insight deployments -- including multi-server, distributed, and failover configurations using HP Performance Insight (PI) version 5.4. This lecture and lab course is taught on Windows® platforms, but includes information for operating PI on Unix systems.. This course covers Software versions 5.x, 5.4 and 5.4.1 The hands-on labs are currently using software version 5.41
