

Kod szkolenia: **NNMI200**

Tytuł szkolenia: **Network Node Manager i Software 9.x Advanced**

Dni: 3

Opis:

This course provides in-depth technical knowledge about the advanced administration of Network Node Manager i Software (NNMi) 9.x.

It is intended for those who might need to use features, such as Global Network Management, user interface customization, advanced incident handling, custom event correlation, integration with HP Software products, fail-over options, and advanced command-line options. This three-day course is a mixture of lectures and hands-on exercises. Network Node Manager i Software 9.2 is used during the hands-on exercises.

This course is designed for users who already have some prior knowledge and hands-on experience with Network Node Manager i Software 9.x.

Versions 9.0 - 9.2.
